

Suitable products for Lasa marble *(manufacturer recommendations)*

Lasa marble – Hard as nails

Due to the double metamorphosis during its formation, Lasa marble is particularly hard and pressure-resistant. Its dense and compact structure gives it frost-resistance, which allows it to be used indoors and outdoors. As with all calcite marbles, contact with acids should be avoided. Dipl.-Ing. (FH) Detlev Hill has researched the following manufacturer recommendations.

INSTALLATION (all data refer to cementitious substrates)	Tiles and slabs calibrated	Sheets and format tiles uncalibrated	Large-format workpieces in thick bed	Cementitious jointing mortar for covering joints	Elastic jointing mortar for semi-flexible joints
Ardex	ARDEX X32	ARDEX X32	ARDEX X32	ARDEX MG	ARDEX ST
Bostik	Ardaflex Marmor Fast	S2 Premium	Trass- and natural stone mortar	Ardacolor Flex	S960 Marmor Silikon
Botament	MULTISTONE	MULTISTONE	MULTISTONE	MULTIFUGE Fine Speed	S3 Supax
codex	codex Stone SX 80 cristal	codex Stone SX 60 MB	codex Stone SX 50 MB	codex Brillant Cristal	codex SG 20
gräfix	gräfix 321OCR + Rabolin 130	gräfix 341OCR + Rabolin 130	Rabolin 120 + gräfix 312 + gräfix 43	gräfix 3300	EGO 351
Kiesel-Bauchemie	Servoflex Trio SuperTec schnell weiß	Servoflex Trio SuperTec schnell weiß	Servoplan E555 + Servoflex Trio SuperTec schnell weiß	Servoperl royal schnell	Oka Silicon M
Mapei	Keraquick S1, white	Keraquick S1, white	Keraquick XL Fibrelite	Ultracolor Plus	Mapesil LM
Murexin	SFK 81	SFK 81	DMT 40 + SFK 81	FX 66	SIL 50
PCI	PCI Carraflex	PCI Carrament	PCI Carrament	PCI Nanofug Premium	PCI Carraferm
Schönox	SikaCeram -275 Marble&Stone	SikaCeram -275 Marble&Stone	SikaCeram -275 Marble&Stone	SikaCeram-690 Elite	Sikasil C Premium
Schomburg	Cristallit-Flex	Cristallit-Flex	Trass- and natural stone mortar	Cristallfuge-Plus	Escosil-2000-ST
Sopro	Sopro No.1 silver 403	Sopro MDM 885	Sopro TVM 858	Sopro FL plus	Sopro Marble Silicone

CLEANING, PROTECTION AND CARE	Grouting aid for rough surfaces	Cement residues removal at construction initial cleaning	Basic cleaning for coarse soiling	Impregnation for preventive stain protection	Maintenance care
Akemi	Pre-Protect	Stone Cleaner	Stone Cleaner	Pearl Impregnator	Crystal Clean
Alpin Chemie	Fughilfe	Grundreiniger	Grundreiniger	Carrogard	Naturstein-Pflegereiniger
Fila	PRW200 (GB, USA)	CLEANER PRO (GB) CleanAll (USA)	CLEANER PRO (GB) CleanAll (USA)	MP90ECOEXTREME (GB) MP90Eco Plus (USA)	CLEANER PRO (GB) CleanAll (USA)
Lithofin	Lithofin MN Stain-Stop	Lithofin MN Power-Clean	Lithofin MN Power-Clean	Lithofin MN Stain-Stop	Lithofin MN Wash & Clean
Möller Chemie	HMK S245 - JOINT PROTECTOR - water based	HMK R155 - INTENSIVE CLEANER - acid free	HMK R155 - INTENSIVE CLEANER - acid free	HMK S234 - STAIN PROTECTION - extra	HMK P324 - LIQUID STONE SOAP - no rinse

The products were compiled in 2022 within the framework of the steinkultur.eu initiative by Dipl.-Ing. (FH) Detlev Hill. The product suggestions were made by the respective manufacturers. In the case of special requirements and in the project sector, the application technology departments of the respective manufacturers should be consulted.

Dipl.Ing.(FH) Detlev Hill

Owner of the Information Service Natural Stone and founder of the steinkultur.eu initiative. He is a speaker at numerous international seminars on the subject of natural stone, a specialist author and co-editor of the „Große Enzyklopädie der Steine“ (Great Encyclopaedia of Stone), which is the world's largest reference work on the subject of natural stone with more than 22,000 natural stone varieties. After studying architecture and working as an architect for several years, he joined one of the leading wholesale groups, where he was Head of product development and international natural stone purchasing.
